2. Discussion

[Redacted]

25X1

[Redacted] of ORR, is retiring from government employment effective c.o.b. 31 August 1953. [Redacted] has had long experience in the economic defense field, both during World War II and more recently, during the post war period. He is fully cognizant of historical developments in this field, and has recently completed a mission to several posts in Western Europe for the purpose of examining the effectiveness of the collection and use of economic information pertaining directly to economic defense planning and trade control operations. It is anticipated that problems will arise occasionally during the coming year for which [Redacted] can give invaluable assistance and advice based on his past experience. For this reason it is felt that it would be of direct advantage to the Agency if his services were obtained on a consultant basis for an average of approximately two days per month during fiscal year 1954 at \$50.00 per day.
